

Product Stewardship Policy

Product stewardship is a key aspect of ETG Inputs Holdco Ltd (EIHL) operations making Health, Safety and Environmental protection an important driver of our growth. It is our continuous endeavor to provide products of the highest Quality with the lowest possible impact to Human health and the Environment. Our products are aimed at crop protection and increasing crop yields thereby playing an important role in achieving Food Security for the world.

In alignment with the Responsible Care® initiatives adopted around the world, EIHL is committed to:

- Complying with all applicable Laws and Regulations in our operations.
- Providing products that can be Manufactured, Stored, Handled, Transported, Used and Disposed of safely.
- Continuously striving to reduce Environmental, Health and Safety impacts in the Production, Handling, Storage, Transport and Distribution of our products.
- Adopting Risk based thinking in all areas of our operation to identify and mitigate risks at the source.
- Monitoring and continually improving the Environmental, Health, Safety and Quality performance of our products and processes.
- Providing information to Customers, Distributors, Suppliers, Contractors, Employees and other Stakeholders about the Environmental, Health and Safety aspects of our products to encourage Safe and Secure use, Storage, Handling, Transport and Disposal of our products.
- Implement best security practices at all levels of our operation and transport to prevent wrongful use of our products.
- Imparting suitable training to employees (permanent and contractual) to improve competence and strengthen organizational Product Stewardship performance.
